Dear Barbara,

We wanted to thank you for performing such a wonderful and magical ceremony for us. All of our guests loved the ceremony. That was all that they could talk about during the reception, everyone was raving. We were very happy that our families enjoyed the ceremony so much. They were all really impressed with it, which is a huge complement because they were all leaning towards a more traditional religious ceremony. We also appreciate the consideration you put into the ceremony of both our personal and religion background. The personal details were a wonderful touch.

We would be more than happy to speak to your prospective clients about the wonderful job you did for us. Please feel free to use us a reference. When any of our local friends plan their weddings we will be sure to recommend you to them.

As always we can be reached at the above address and phone number or via email at
